

NADEEM N

Product Designer

Bengaluru, India · Open to remote, US time-zone overlap

nadeemn.com · nadeem100avis@gmail.com · linkedin.com/in/nadeem-designer

SUMMARY

Product Designer with a B.Tech in Artificial Intelligence and 3+ years of experience designing AI-native B2B SaaS products end to end. Skilled in interaction design, design systems, user research, and information architecture, with hands-on prototyping and shipping using Claude and Antigravity (React, HTML/CSS).

EXPERIENCE

Product Designer, Intervue.io

May 2024 – Present

Bengaluru, Karnataka · Interview outsourcing & hiring intelligence platform

- Sole designer for IIIP, an all-in-one AI-native hiring platform that brings AI sourcing, AI screening, HR screening, interviews, scheduling, and analytics into one product, replacing fragmented multi-tool ATS workflows; live with 4 enterprise beta customers.
- Designed explainable, criteria-based AI screening that **cut first-interview drop-off from 90% to 40%**, so interviewers only met qualified candidates.
- Redesigned the mock interview landing page and booking funnel: **+82% conversion and 2x revenue in 2 months**.
- Designed the setup flow for AI voice screening agents, letting recruiters launch automated screening calls without engineering help.
- Designed the core live technical interview experience (code editor, evaluation rubrics, interviewer tooling) used across thousands of outsourced interviews.

UX Design Intern, Valuematrix.ai

Oct 2023 – Apr 2024

Bengaluru, Karnataka · AI-powered talent assessment platform

- Designed the Admin portal to streamline operations across assessments, users, and reporting.
- Built reusable components for the Valuematrix Design Language System (DLS), keeping product design consistent and scalable.
- Partnered with product managers and engineers to validate feasibility and align designs with user needs.

UI/UX Design Intern, Ammachi Labs

Feb 2023 – Aug 2023

Kollam, Kerala · Research lab, Amrita University

- Revamped the Skill-e-Labs website brand system and designed drone web-simulation interfaces that shortened the learning curve for complex operations.

PROJECTS

Design Snapper: AI UX Audit Tool (Founder & Designer)

Jan 2026 – Oct 2026

Figma, Figma Make, Claude, Supabase

- Designed and shipped an AI-native UX audit product end to end as a solo founder: screen audits in seconds, with auth, pricing, and a user credit system built on Supabase.
- Built a companion Figma plugin for one-click frame upload, cutting the audit workflow to a single step.

SKILLS

Design	Product design, UX/UI design, interaction design, design systems (Carbon, Material 3), user research, information architecture, usability testing, visual design, developer handoff
Prototyping	Figma, Figma Make, FigJam, React, HTML/CSS, AI-assisted prototyping with Claude and Antigravity, Supabase, Notion

EDUCATION

B.Tech in Artificial Intelligence, Amrita School of Engineering, Kollam

Oct 2020 – Aug 2024
